

## MTB Tag Fitting Guide

Please follow these instructions to ensure optimum performance from your ChronoTrack timing tag

Thread cable ties through holes

Attach second tie at top, and third tie at bottom

Loosely tie cable tie around brake cables. Timing Tag must not touch handlebars

Numberplate in place

## **Ensure timing tag is clear of bars** and brake levers

- Please do not remove your timing tag
- Please do not bend or fold your timing tag
- Please do not cut or fold your numberplate
- 1 Your timing tag must not touch your handlebars or brake levers

1 Your failure to follow these instructions will result in your time not being recorded

If you have difficulty following these instructions please see a timing official for assistance
